Farzaneh Feizi

thermodynamics Iran University of Science and Technology
feyzi@iust.ac.ir

Hossein Ghannadzadeh Gilani

Design and optimization of precesses, Biomass and Hidrogen economic, Separation processes using distillation & Extraction liquid-liquid, Memmbranes and adsorption, Process development, cryogenics and gas liquefaction processes University of Guilan
hggilani@guilan.ac.ir

Farshad Varaminian

gas hydrate, Crystalization process, Optimization, Exergy analysis, Heat transfer Semnan University
fvaraminian@semnan.ac.ir

Ali Haghighi Asl

Semnan University
ahaghighi@semnan.ac.ir

Masoud Nasiri

Separation processes, Fluid flow in porous media, Thermodynamic properties of reservoir fluids, Overdraft of oil, Drilling fluids Semnan University
mnasiri@semnan.ac.ir

Ali Haghtalab

Tarbiat Modares University
haghtala@modares.ac.ir

Jafar Javanmardi

Gas hydrates, Thermodynamics, Wax formation, Water desalination, Biological removal of pollutants Shiraz University of Technology
javanmardi@sutech.ac.ir

Babak Mokhtarani

Process engineering, 2- Biotechnology, 3- Environmental engineering, 4- Thermodynamics
Iranian Institute of Chemistry and Chemical Engineering
